

## **Inefficient HVAC equipment wastes energy and money.**

Maintain your equipment to prevent future problems and unwanted costs. Keep your cooling and heating system at peak performance by having a contractor do annual pre-season check-ups. Contractors get busy once summer and winter come, so it's best to check the cooling system in the spring and the heating system in the fall. Plan the check-ups around the time changes in the spring and fall.

*Just as a tune-up for your car can improve your gas mileage, a yearly tune-up of your heating and cooling system can improve efficiency and comfort.*

### **Guidelines:**

1. Application must be submitted before December 31, 2010.
2. Central Georgia EMC residential single family members may qualify for a \$30 rebate to have a Preseason Tune-up performed on their Central Air Conditioner in the spring (April 1—June 30, 2010); and a \$30 rebate to have a Preseason Tune-up performed on their Heat Pump in the fall (September 1—November 30, 2010).
3. Rebate will not exceed the cost of the preseason tune-up.
4. Rebate is not available for new construction .
5. A completed Rebate Application is required.
6. Application must be signed and dated by both the customer and HVAC contractor.
7. Customer must submit a dated, detailed invoice as proof of service completion. *Failure to provide required information may result in denial of rebate.*
8. Rebates are awarded on a first-come, first served bases until program funds have been depleted.
9. Rebate not valid on gas fired furnaces, must be electric heat pump.

### **Preseason HVAC Tune Up**

*Central Georgia EMC residential members may qualify for a \$30 rebate to have a Preseason Tune-up performed on their cooling system in the spring; and a \$30 rebate to have a Preseason Tune-up performed on their Heat Pump in the fall.*

# Heating & Cooling Rebate

## Preseason HVAC Tune Up Rebate Form

Central Georgia EMC residential members may qualify for a \$30 rebate to have a Preseason Tune-Up performed on their cooling system in the spring; and a \$30 rebate to have a Preseason Tune-Up performed on their Heat Pump in the Fall. Inspections and maintenance of heating and cooling systems ensure proper and efficient operation, and prevents untimely breakdowns. *Rebates are for preseason HVAC tune-ups performed during specified preseason timeframes. Certain restrictions apply; see Guidelines.*

### Rebate Process:

1. Select an HVAC contractor  
CGEMC recommends getting at least 2-3 different bids.
2. Complete the preseason heating and/or cooling tune-up.
3. **Submit the following information:**  
**Application with the customer's and HVAC contractor's signatures and copies of the invoice showing the date of work completed.**
4. The rebate will be processed within 2-4 weeks after the properly submitted application and information is received.
